

Glasses

Some people

need

to wear

glasses.

Glasses

help

people

with weak

eyes

to

see

better.

Without

glasses

things

are

hard

to

see.

Things

look

unclear .

A

special

eye

doctor

or optician

will check

eyes .

They

will know

if you

need

glasses or

not.

Some people need to wear glasses all

day but take them off at bedtime.

Other people wear glasses at certain times

to read

to drive

use a computer

work

It

does not

hurt

to

wear

glasses.

If

you

can't see

clearly

then

you

could

crash

or

bump

or

fall

Glasses

make

things

look

clearer

If

things

are

clear

then

you

will

be

safer.

Glasses can be different shapes and sizes .

Here are some pictures of glasses
